

Bedded Unit Healthcare Assistant

Working with us is awesome!

We see first-hand the importance of focusing on the life in our days not the days in our life. As such we recognise that to be happy in life you need to feel supported, content, motivated, passionate and have fun in the work you do. So with that in mind, we have flexible working arrangements to support the other things going on in your life. You will have a minimum of 35 days leave, including bank holidays, and an additional day off for your birthday (all leave is pro rata for part time staff). We have a broad range of special leave support ranging from adoption to pawternity leave, (no that's not a spelling mistake; you have leave when getting a new pet!). We pride ourselves on our fair and transparent pay. In addition, we provide a contributory pension scheme as well as enhanced sick pay. Your wellbeing is essential. We provide an extensive wellbeing programme which includes a free employee assistance programme and a health cash plan. Your opinion also matters so we regularly ask for your input and feedback on how we can improve and on key organisational initiatives. We are here for the whole community and we value the diversity everyone brings to our team. We want you to grow, so we will support you with your learning and development throughout your career with us. As a charity, we are all about pre-loved and sustainable retail and, at all our sites, we care about the impact we are having on our environment. The key thing though on why working with us is awesome is simple: you will make a difference to peoples' lives. You will enable care and support to be given to people when they are feeling at their most scared and vulnerable.

Our Mission is Simple

To provide outstanding care and support to the community of North Devon who are impacted by a life limiting illness.

Bedded Unit Department Vision

As a team, our outstanding, person-centred palliative care positively impacts on the physical, social, emotional and spiritual wellbeing of our patients and their relatives and carers.

It is important to us that all our colleagues:

- Act as an ambassador for the hospice
- Show deep motivation to make a real difference to our patients and their families
- Are kind
- Are honest, open and operate with integrity
- Are personally accountable and take responsibility for their own actions, decisions, performance and professional development
- Approach their role with fun, positivity and a growth mindset – and want to learn
- Are not scared to try new things and know that to succeed, sometimes they will have to overcome obstacles to achieve the best outcome for the hospice
- Are proactive in seeking out the information they need to do their job and in sharing information with their colleagues to enable them to do their jobs
- Listen and communicate effectively, calmly and constructively, adapting their approach to the needs and concerns of others
- Are collegiate and act as 'One Team', working in collaboration with their colleagues within and outside of their team
- Understand the impact of their emotions on themselves and others
- Show empathy when noticing unsettling emotions in others
- Speak up when they have worries or concerns and take appropriate action if their values are compromised
- Are open about when they have made a mistake and are proactive in resolving it
- Value and respect others and promote equity, diversity and inclusion

Bedded Unit Healthcare Assistant

To succeed in this role you will have:

- A good standard of education including Maths and English GCSE at Level 4 or above (or equivalent) as well as a Level 2 in Care or equivalent
- Experience in a care role within a health or social care setting
- Experience in palliative care or oncology (training will be provided where necessary)
- The ability to listen and carry out instructions
- An understanding of the role of the carer in delivering compassionate care
- A good level of IT skills
- Emotional resilience, with a calm and composed personality
- A compassionate approach to people, demonstrating empathy at a difficult time in their life
- The ability to manage and prioritise your own workload
- The ability to work flexibly to meet the needs of the wider service
- The ability to work on your own initiative and as part of a team
- The ability to deal with people at all levels with tact, discretion and diplomacy
- A sensitive nature and be inherently caring and committed
- An enthusiastic approach to your role within the team and wider hospice cause
- The ability to acknowledge your own limitations
- The ability to be resourceful, flexible and non-judgemental

In this role you will be responsible for:

- Assisting with a range of patient care duties under the indirect supervision of registered staff
- Assisting in the provision of high quality palliative care for patients and their relatives and carers
- Assisting with care which encompasses the physical, social, emotional and spiritual wellbeing of patients and their family members

Caring for Hygiene and Comfort

- Assisting patients to maintain all aspects of daily living activities in accordance with individual programmes of care with close supervision of registered nursing staff
- Maintaining patients' personal hygiene and appearance
- Being competent in maintaining patient skin integrity, updating pressure ulcer risk assessment tools that have been completed initially by a registered nurse. As well as escalating any change in risk level or changes to skin appearance that require assessment from a registered nurse
- Assisting patients with eating and drinking
- Assisting patients with elimination needs including continence, catheter and stoma care
- Helping with non-pharmalogical approaches to maintain patient comfort and managing symptoms, e.g. comfort rounds and re-positioning, mouth care, listening and reassuring

Clinical observations and procedures

- Demonstrating a knowledge of care procedures and clinical observations etc. that are consistent with Diploma in Health and Social Care Level 2 or equivalent
- Assisting with clinical procedures following appropriate training
- Ensuring that you follow good infection control practice at all times and are familiar with infection control policies, procedures, and guidance relevant to your area of work
- Providing patients with complementary therapies where workload allows and in accordance with training and competency, ensuring documentation is completed following any therapies provided
- Assisting with last offices
- Acting as second checker for controlled drugs administration following training and competency being achieved
- Assisting registered nursing staff in aspects of technical care and record keeping, e.g.:
 - a) Taking and recording vital signs. i.e. temperature, pulse, and respiration rate
 - b) Urine testing and obtaining specimens
 - c) Blood glucose monitoring
 - d) Venepuncture

Bedded Unit Healthcare Assistant

- e) Wound care
- f) Basic foot care including nail trimming and filing

Information and Communication

- Maintaining appropriate sensitive, caring and tactful relationships with patients, families and carers
- Ensuring valid consent is gained before all aspects of care are delivered and understanding how the Mental Capacity Act is implemented when patients are unable to give valid consent
- Offering support as appropriate to patients, their families and carers and professional colleagues
- Supporting patients, and their family members, as they approach end-of life and at time of bereavement
- Informing registered nurses of any significant changes in patients' condition and family's needs
- Co-operating with, and communicating clearly and professionally any changes that may affect patient care, to the registered nurse caring for the patient, or the nurse in charge
- Welcoming new team members and supporting learning about the role of the HCA and North Devon Hospice
- Working as part of a multidisciplinary team
- Ensuring that confidentiality of information is maintained at all times and in compliance with GDPR
- Developing and sustaining a good working partnership with your colleagues, other health care professionals and external agencies
- Working in other clinical areas as appropriate to meet the needs of the service as directed by the Clinical Team Lead or nurse in charge
- Ensuring that you follow good infection control practice at all times and that you are familiar with infection control policies, procedures, and guidance relevant to your area of work
- Understanding your role in the safeguarding of adults and children by being able to identify risks, and recognise signs of harm, abuse or neglect including how to report concerns and take immediate action to protect a person at risk of harm or abuse

Your competency framework - you will:

Strategic Thinking and Setting Direction

- Act as a positive role model for change and innovation in a way that inspires and reassures staff, patients and the public
- Show openness to new information and views from different standpoints and modify own thinking
- Gather feedback from patients, service users and colleagues that help you to do things better, more efficiently and improve services

Sharing the Vision and Delivering the Service

- Support others to provide good patient care and high quality services
- Demonstrate a culture of high achievement, showing pride in the quality of our services and taking action where improvements are needed
- Participate in and contribute to organisational decision-making processes
- Use feedback on things that are working well and things we could improve to do your job more effectively

Leading People

- Help create the conditions that help the team provide mutual care and support and create pride in achievement
- Be able to receive and act upon challenge and feedback and take action to improve own performance
- Challenge colleagues in a constructive and appropriate way

In addition we will ask you to:

- Promote diversity and inclusion in all that you do
- Complete statutory training in accordance with hospice requirements

Bedded Unit Healthcare Assistant

- Participate in personal development and review processes.
- Adhere to all organisational policies and procedures
- Actively participate in the hospice risk management process in order to help safeguard the welfare of patients, visitors and staff and to take responsibility for reporting risks and managing risks as appropriate
- Follow good infection control practice at all times and maintain an up-to-date knowledge of the infection control policies, procedures, and guidance relevant to your area of work

The small print:

- This job description may be reviewed in consultation with you and in light of any changing service requirements
- The job description is not exhaustive; other duties commensurate with the post may be required from time to time
